

MATHS OLYMPIAD

DATE: 22.09.2017

CLASSES: I - XI

A Mathematics Olympiad is a problem solving competition open to all 'mathletes'. The aim of the competition is to test the innate problem solving skills. It increases the thinking capacity, problem solving skills, confidence and hence helps in an all over development of a child at a young age.

Please take note of the following in this regard:

- Maths Olympiad is scheduled for 22nd September, 2017.
- The Olympiad will be conducted during the first two periods.
- The topper of each section will be awarded a Gold Medal.
